Dear UW-Stout Alumni,

As I reflect on my first four years at UW-Stout, I realize how central the alumni are to the health of this university. I have had the pleasure of meeting many of you either on campus or at various meetings and I am always impressed with the strong ties you retain for this institution. Your careers and many successes demonstrate that our focused mission, our care and concern about students, and our quality programs do make a difference.

Not only do we have a rich tradition, but our future is extremely bright. The program initiatives such as manufacturing engineering, service management, and many others, represent a faculty determined to meet the changing needs of modern society. By 1996, when the projects are scheduled for completion, over fifteen million dollars in building renovations will provide state-of-the-art facilities for our programs. We are successful here because we have an exceptional alumni organization and because you continually offer your support to us.

I am confident that we are well positioned for the 21st century. We will continue to inform you of our progress, meet with you, assist you in organizing alumni groups across the country and work with you in every way we can to maintain the fine reputation of UW-Stout. I thank you for your support and I look forward to working with each of you.

Named Professorships

The Hormel professorships were established through the Toward Century II capital campaign. The awards represent an ongoing effort to improve educational quality by the use of outside funding provided through the Stout University Foundation. The George A. Hormel & Co., Austin, MN, provided funds for the Hormel professorship. Funds for the Dahlgren professorships come from a bequest to the Stout Foundation made by Reinhold and Borghild Eng Dahlgren, both graduates of the Stout Institute.

Recipients of each professorship are selected based on their outstanding ability and promise for future development. In the selection process, deans from each school, in consultation with the faculty, nominate candidates to the vice chancellor. As part of the honor, recipients of the professorships are provided monies ranging from $4,500 to $7,500.
